The high quality and low prices of the Silks bought by us at McCreery's Auction Sale will be a surprise and revelation to you.

McCreery's

High grade Silks from McCreery's Auction Sale at 40 to 50 per cent of their value on sale tomorrow.

Sale of James McCreery & Co.'s Silks Tomorrow

The offering embraces high grade staple black and colored Silks far superior to any ever offered for sale in Duluth. It is not an idle boast when we say that this will be the largest silk sale ever held in Duluth. There's not a shade of exaggeration in the claim. Messrs. James McCreery & Co., of New York, the largest silk handlers in this country, sold at auction over \$500,000 worth of the finest Silks made at home and abroad. We were among the lucky purchasers to the extent of \$6000. Our bids ranged from 40 per cent to 60 per cent of actual values. The last of the shipment arrived Saturday afternoon and an examination shows that these silks are all, and more, than our buyer has claimed for them.

Our Prices Will Be a Slight Advance Over Auction Prices.

This means that you can buy for about one-half what you expect to pay for high-class Silks. Misrepresentation has never been allowed to enter our announcements. We are stating plain, hard facts in the simplest possible manner. These Silks are of superior quality—the best made. We bought for one-half what we usually pay. We shall sell in a like proportion. Below we give a comparison of McCreery's regular prices and our prices. The figures are not fiction, but are based on actual facts.

It's perplexing to figure the way the votes will go. But it's easy to figure out why our Clothing Department is so popular.

Because you have a good, clean, stylish, up-to-date stock to select from.

Because we give you "honest goods" at "honest prices."

Because of the concern being known as one that deals fair and square with its patrons.

Because of the "\$1 per week payment" plan.

Because it enables every one to dress well whether they have the ready cash or not. We carry a complete line of Men's, Boys' and Ladies' Clothing.

Don't forget us if you need a Rain Coat. All kinds and prices.

ELECTION FIGURES

Statistics of Contest Two Years Ago That Are of Interest Now.

THE SIXTH DISTRICT

Lind Carried It By 4504-- Congressional Vote In This County.

With the election but a week distant interest in the outcome is plainly on the increase and the study of former results is becoming more a matter of much interest. Nearly every person who is anxious to know the result of former elections can be depended upon to find a copy of the legislative manual somewhere and read most of the information he wants. There are some things, however, which the manual does not show. One of these is the vote on congressmen by precinct in the various districts of the state. It shows the vote by counties, but not by the subdivisions of counties on this office. Another thing which is of interest to many in this district is the vote of the district in 1898. This can be found by going through the list of counties and picking out those in the Sixth district and totaling them, but it cannot be found any more. It is a table by itself. Of course this cannot be charged against the manual as it is a fact for it is impossible to give all these combinations. In order that those interested may have the figures, The Herald has compiled a table showing the vote of Kinsale and Lind, and Morris and Towne in this district two years ago. It is as follows:

Silks. Silks. Silks.

As buyer and manager for the biggest and best Silk Department at the Head of the Lakes I want to place myself on record as the best bargain giver in this four-cornered silk sale. My goods are the choicest to be found in the market—being selected from the newest and best things, from fifty different Silk Houses. They are not the unsaleables or left-overs that call for the auctioneers' hammer at the end of the season. Neither are they the remnants or odds and ends of an ancient Silk Department. The goods are this season's, and to see them and know the prices we have put on them are more convincing than four pages of Printer's Ink. "Enough said."

West Duluth

The report in the morning paper that the meeting of the Democratic French Canadians at West Duluth last night was a frost has caused a great deal of indignation among the people of that nationality that were present at the meeting. They say that the paper must have been laboring under the idea that the meeting was to be held at the fusion headquarters, when it in reality took place at 167 Central avenue, the hall being packed with a very enthusiastic crowd. The "fusion" speakers, as applied to the Frenchmen, are here, is another thing that does not set very well. The members of the French Bryan club do not believe themselves to be laboring under greater or for that matter less of a "fusion" than the English club or his organ. The meeting last night was presided over by Adolphus L. Gaudin, president of the French Bryan club. Edward Bellier, of Minneapolis, and other local speakers in the French language, and by John E. Davies, candidate for county attorney on the fusion ticket, in English. All the speeches were to the point, and none very given any person or party, but plain facts were uttered to. This made a strong impression on the audience, and the speakers were heartily cheered.

COUNCIL MATTERS.
Two matters of interest to the people of West Duluth came up in last night's session. The first was a resolution passed by the council asking the Northern Pacific Railroad company to remove its tracks from crossing with Raleigh street. The company has refused to do this, so another resolution was introduced by Alderman Swenson, and passed by the council, instructing the city attorney to take the necessary legal steps to enforce the resolution. An ordinance, introduced by Alderman Swenson, and passed by the council, last night, amended the ordinance fixing the new pound limit of the Fifth ward district. The amendment changes the boundary from Seventy-first avenue west to Seventy-third avenue west.

RAFTS ALL IN.
The Levee Lumber company has received a raft of 1,000,000 feet of lumber that has been kept up the Brule river for some time on account of low water. Loggers say that in the spring and summer because of the low water have now been brought down, with the exception, perhaps, of a few scattered logs along some of the branches of the Nemadji.

WEST DULUTH BIRDS.
The West Duluth Bird club will hold a special meeting tonight for the purpose of working up a little enthusiasm for the Knute Nelson meeting at St. Paul on Saturday night.

Judge Stone is expected to hand down his opinion about the first of November in regard to the legal controversy as to whether the Duluth police have a right to accept the constabulary force. Joseph Boyne has just returned from Seattle and resumed his position at Mitchell & McClure's mill. Mr. Boyne expected to start from Seattle for the Klondike gold fields, but on account of the reported smallpox scare up there has

The Sale of Silks

Continues—and becomes more important as it progresses, for notwithstanding the unpleasant weather our business was very satisfactory and promises to be more so—as our values become known—and comparisons are made. We do not believe in sacrificing quality at the bargain altar—cheap stuff and goods out of style—or patterns and colorings not desirable—are always the most expensive in the end, for it is true that good comes only from good, bear in mind, then, that quality is a star feature of this store's business—and these silks are a fair criterion—the silks on sale are from regular stock—and bought several months ago when assortments were at their best—but priced for present selling to meet any and all competition—We repeat prices today merely to keep you posted.

THE DAKOTAS.

Fargo Man Sued His Girl to Get Back Money Advanced.

NORTH DAKOTA.
Fargo—A. Norlander started suit last week against Clara de Priest to recover something over \$100, which he claimed the fair Clara had secured from him under false pretenses. Norlander alleged that the defendant had come from Indiana to Fargo, to marry him when she secured a divorce. After working for him a short time she left his place and later refused to become his bride. Norlander decided not to prosecute the case and withdrew his suit. He is the proprietor of a greenhouse here and is a preacher.

The suit of the Mercer County Mercantile company, which was started in the state district court at Bismarck against the Northern Pacific Railway company, has been transferred to the United States court, on motion of the defendant's attorneys.

SOUTH DAKOTA.
Deadwood—Douglas Greenwood, of this city, is in jail under \$1000 bonds for attempting to kill Gerrie James, a waitress at Lead, Greenwood cut the girl's throat with a razor from ear to ear, but not deep enough to kill. He then cut his own throat badly. Jealousy was the cause of the crime.

Be Smet—Dorchester & Van Vraklin's heavy barn was burned. Twenty-three horses and all the contents were consumed. The loss is \$8000, insured for \$2500. The fire was confined to the building.

Rain and storm did not keep the crowd from McCreery's Silk Sale.

It is the quality and the price that make this Silk Sale so auspicious.

Tomorrow is the second day of the sale of McCreery & Co.'s

SILKS!

McCreery & Co.'s

SILKS!

The temptations today were too irresistible and not the severest Lake Superior gale could keep the crowd from our silk counters. Appreciative shoppers found this sale all that we claimed for it—namely, Silks of the highest character at much below their wholesale worth.

With fair and pleasant weather we predict the attendance at this sale will be doubled daily. Good news spreads quick, and so will the merits of this sale. It can't be otherwise—the bargains are too good to be kept secret.

Our liberal offer of yesterday to refund the money for any silk bought at this sale, if the same is not found in every particular as represented or not cheaper than any silk that you have ever purchased before holds good.

CLEVELAND INTERVIEW

Man Who Talked With Ex-President Swears to Truth of Story.

Belief That Cleveland Did Not Expect It Would Be Published.

Washington, Oct. 31.—(Special to The Herald.)—The Philadelphia Times says editorially today: "Mr. Cleveland's emphatic denial of the interview on the political situation, published in this journal yesterday morning, is accepted as conclusive. The Times owes it to itself and to its large circle of readers to say that it was not in any measure a party to the publication of the interview, beyond accepting it from the author, who was highly accredited. The Cleveland interview was brought to the Times office at a late hour on Monday night by R. J. Black, a resident of Iowa. He had letters of recommendation from J. Sterling Morton, a member of President Cleveland's cabinet, and from other close friends of the ex-president. He stated that he had come directly from a visit to Mr. Cleveland, had discussed the political situation fully with him and had carefully taken down Mr. Cleveland's utterances. This accredited, and at an hour too late to verify the interview, the editor in charge was fully convinced that no imposture was intended, and promptly published the interview, as it was highly important, if true."

"The Times adds this important statement: 'As soon as Mr. Black, whose initials were signed to this dispatch, heard yesterday afternoon that Mr. Cleveland had given the interview, he voluntarily came to the Times office and made the following affidavit:—

"Philadelphia, Oct. 30, 1900.—I, Robert J. Black, had an interview with Grover Cleveland on the 23rd day of October, 1900, in his home in Princeton, and during a lengthy talk with him in his parlor he told me that he favored Mr. Bryan and said: 'My boy, you will see a handle for Bryan the day after election.' That is all I said. Bryan was a great orator."

"R. J. BLACK, 'Vinton, Iowa.'
"Witness—JOHN A. BRADLEY, 'Vinton, Iowa, 1900.'
"JOHN A. BRADLEY, 'Magistrate of Court 23.'"

The opinion prevails among politicians in Washington that Mr. Cleveland made the statement credited to him by Black, but the former, they say, may not have expressed these views for publication.

People of Wall Street Press Force in Trouble.

New York, Oct. 31.—Leonard Watson, assistant manager of the Wall Street Press, John Evans, president of the press, and Ferdinand G. Gardner, an employee, were defendants in police court today in the charge of blackmail. The complaint is by J. Morgan, a banker and broker.

Morgan says Gardner came to him several days ago with a proposition to publish in the Wall Street Press, if he Morgan did not pay him \$25,000. Morgan says he demanded the article as a bribe, and made Gardner call and repeat the offer. Morgan says he agreed to pay the \$25,000, but he says that the defendants accepted a \$10,000 bribe and refused to publish the article.

BODIES ARE FOUND

Remains of New York Explosion Victims Taken From the Debris.

TORN TO FRAGMENTS

Some Are Gathered Up Piecemeal and Will Never Be Identified.

New York, Oct. 31.—At an early hour today only four bodies had been recovered from the ruins caused Monday by the explosion in the Tammany drug house. Of these only one body has been identified, that of August Schmidt. The three unidentified bodies were gathered piecemeal and never will be identified.

Early this morning a number of bodies were found. Inspectors Trench and Kenny, of the building department, found a woman's head at the northwest corner of Greenwich and Warren streets. Later the same men found a package of tools, a man's apron and hat. Inspector Graham, of the building department, while hunting through the ruins, found two pieces of human flesh, and the same inspector found another piece of human flesh and a knee joint.

Two tons of charred of potash and one ton of sulphur, it appears, were in the building occupied by Tarrant & Co., when it was demolished by fire and explosion on Monday night. It has now been decided by Fire Chief Croker and Fire Commissioner Scannell to investigate all of the wholesale drug establishments in the city. Chief Croker said, in the course of an interview:—

"I know that nearly all of these wholesale drug houses carry explosives in such quantity as to render them powder magazines. To all purposes, they are a constant menace to public safety, and I propose to see that storage houses are maintained at a safe distance outside the city."

The force of men at work today numbers 800. About 4 a. m. a fresh outbreak of fire occurred at Warren and Greenwich streets, stopping for some time the work of clearing away the debris.

Ira C. Barnes, an egg dealer, and William Halsey, employed by Mr. Barnes, who were reported missing, were found today. Mr. Barnes says that the Francis Barnes, egg dealer, reported missing, is probably a fictitious person. He says he has made inquiries and can find no trace of any person and believes that his name was confused with the other. If this is true, the list of missing is thus reduced.

Fredrick Thomas, who was employed as a bootblack in 283 Greenwich street, and was reported among the missing, made his appearance today.

FINE EXHIBIT.

Books and Manuscripts on Early History of District of Columbia.

Washington, Oct. 31.—(Special to The Herald.)—The centennial year of the removal of the seat of permanent government to the District of Columbia is to be recognized in an appropriate fashion at the library of congress. An exhibit is now being prepared of books, maps, prints and manuscripts relating to that period in the history of the district. (Owing to the acquisition of the Force and Toner collections and the donation of the district which A. R. Spofford has always taken in the long years he has been connected with the national library, it now contains the largest collection of material about the district that is to be found in any other one place under the direction of A. J. Parsons, a portion of this material in the library is being assembled, and in the purpose of the exhibit is completed to arrange it in cases in the print department. The exhibit will be open within the course of the next few weeks.

It will then be possible for those interested to see what sort of books were turned out from the printing offices in Washington, Georgetown and Alexandria in the opening years of the nation. The earliest book shown will be one printed in Georgetown in 1792, one year following the announcement of the selection of the district as the seat of government. It is the Potomac Almanac, the work of Andrew Elliott, the surveyor, upon whom the duty of laying out the city devolved after disagreement

DEMOCRATS CONFIDENT

Are Assured of a Majority In the Next House and That Bryan and Stevenson Will Be Elected.

Washington, Oct. 31.—(Special to The Herald.)—The work of the Democratic national congressional campaign committee is practically ended. About all the committee will do between today and next Tuesday is to receive at headquarters here supplementary reports from the various states and congressional districts.

Today the members of committee now in Washington feel perfectly confident that a winning fight has been made all along the line in this campaign.

They not only expect a Democratic majority in the next house of representatives, but further assert that the election of Bryan and Stevenson is assured beyond all possible doubt.

Those in charge of the committee headquarters will not yet make a statement of the congressional districts in which they expect gains. It is known, however, they look for an increase of two in Washington state, three or four in California, two in South Dakota, three, if not four, in Minnesota; three or four in Wisconsin, possibly eight in Illinois, from two to five in Indiana, four in Michigan and an increased Democratic representation in Ohio, Pennsylvania, New York, Maryland, Texas and other Southern states.

As before telegraphed, the Democratic committee is certain of a majority in the next house of between thirty to forty-five.

New York, Oct. 31.—C. B. Hart, United States minister to Colombia, South America, who has arrived here and who is on his way to his home in Wheeling, W. Va., said in an interview:—

"Matters in Colombia are seriously mixed. The Liberals started a second revolution three weeks ago, but it has developed great strength. The fighting has been fierce, and up to date the killed and wounded have numbered 30,000. 'While the Liberals have met with much success, it is my belief that the government will be eventually successful, but the revolution is successfully disturbing business. Gen. LIND WILL
BE ELECTEDMajority Will Be at Least
Twenty-Two Thousand,
Says Rosing.Gaining Daily In Cities as
Well as In Country
Districts.

St. Paul, Oct. 31.—Chairman Rosing of the Democratic state committee has issued his first estimate of the outcome of the election in Minnesota. He says Governor Lind will have at least 22,000 majority; that the fusion candidate for railroad and warehouse commissioners will have a good majority; that the rest of the state ticket will be elected; and that the probabilities are in favor of the Bryan electors winning out. Here is Chairman Rosing's statement:

"Having received reports from every county in the state, and practically every precinct, from the same men who reported the situation to me in 1898, we have been able to claim the state for Mr. Lind just previous to election day, a majority of 20,000, which came within 200 of the actual results on election day. I am now ready to give an estimate of the results of the coming election."

"In the beginning of the campaign, none of us had much hope that Mr. Bryan would carry Minnesota. This condition of mind was natural, because for forty years the state has always given its electoral vote to the Republican candidate for president, but now of the campaign is drawing to a close, and after careful canvass, I feel justified in claiming that the state is over 700,000 in the presidential ticket, with the exception of a minority of not less than 20,000, and which is liable to reach 25,000 or 30,000. He is stronger with the people than ever before, and is carrying strength daily in the cities as well as in the country districts. Hennepin county will give Governor Lind a majority of 4,000, and there are indications that his majority may reach 5,000 in that county. Ramsey's majority for Governor Lind will be at least 2,000, the body of the ticket will run 10,000 stronger than Bryan. This is particularly true of the candidates for railroad and warehouse commissioners, who will be elected by a safe majority."

"The congressional situation is very encouraging for the Democrats in the state, even in the first district, the banner Republican district of the state, the Republican congressman is making the fight of his life for re-election, with the odds in favor of his opponent, the Democrats. We claim absolutely two congressmen, with prospects of four."

ARMY STATISTICS.

Figures Given By Corbin In His
Annual Report.

Washington, Oct. 31.—The annual report of Adj. Gen. Corbin to the secretary of war for the year ending June 30, 1900, is a complete statistical record of the army of the United States. It shows that the regular army consists of 23,434 officers and 63,886 enlisted men, and the volunteer army of 15,458 officers and 31,039 enlisted men, a grand total of 98,377. The regular army is distributed as follows: United States, 908 officers, of whom 74 are volunteer officers, and 18,888 enlisted men; all regular, Alaska, 31 officers, 1,088 enlisted men; Porto Rico, 38 officers, 2,400 enlisted men; Cuba, 250 officers, 2,688 enlisted men; Philippine Islands, 237 officers, 62,161 enlisted men; Hawaiian Islands, 6 officers, 219 enlisted men; China, 31 officers, 2,000 enlisted men. There are 870 volunteer officers, enlisted men, in Porto Rico, and 30,290 in the Philippines. These are the only places where volunteer enlisted men are serving.

Some staff officers are serving in nearly all of the places named.

The deaths reported in the army, both regular and volunteer, by the same division, are: United States, 14 officers, 269 men; Alaska, 3 men; Cuba, 7 officers, 146 men; Porto Rico, 36 men; Hawaii, 1 officer and 4 men; Philippine Islands, 49 officers, 1,333 men; at sea, 3 officers, 31 men; total, 74 officers and 1920 men. During the year there were discharged from service 22,552 men; deserted, 2992.

The casualties in the Chinese campaign between July 1 and Oct. 1 were 5 officers and 200 enlisted men killed. Gen. Corbin commends highly the operation of post exchanges and the canteen, saying that the reports from the Philippines, Cuba and Porto Rico indicate that the post exchange has become an absolute necessity. He says that the total amount received from the exchanges so far as reports show amounted to \$1,912,562, with a net profit of \$464,504.

In the statistics given in a table showing the chronological list of actions, from the Philippine Islands from Feb. 4, 1899, to June 30, 1900, together with the losses in killed and wounded, the totals show 23 officers and 476 men killed and 147 officers and 2016 men wounded.

FERRELL IS CONVICTED.

Express Messenger Lane's Slayer
Faces the Electric Chair.

Marysville, Ohio, Oct. 31.—The jury at midnight returned a verdict of murder in the first degree, without recommendation, against Roslyn H. Ferrell for the murder, on the night of Aug. 10 last, of Charles Lane, an express messenger on a Pan Handle eastbound train. The murder was committed for the purpose of robbery. Ferrell secured \$1000 in money from the way safe of the Adams Express company. The verdict carries with it the death penalty, which in Ohio is electrocution. A desperate effort was made to save the prisoner's life. When the verdict was read Ferrell appeared to be taken by surprise and his face flushed. This was the first visible sign of emotion that had been shown by the prisoner during the trial, but he quickly regained his composure and was led to his cell.

LOOTERS AT WORK.

The Germans, French and Italians
Pillaged at Pao-Ting-Fu.

Pao-Ting-Fu, Oct. 21.—The city of Pao-Ting-Fu has been divided into districts under the supervision of the various nationalities represented in the occupying force. Looting is strictly forbidden in the British quarter, but the Germans, French and Italians have sacked their respective districts.

The international commission, which is inquiring into the massacre of the fugitives here, has ordered the arrest of three Chinese officials.

SHOT HER HUSBAND.

And Watched His Dying Struggles
For an Hour.

Quincy, Ill., Oct. 31.—William Hülker, a young carpenter of Hopley, is dead of wounds inflicted upon him with a pistol by his wife. According to the story Hülker told before his death, fully confirmed by his confession, she shot him first in the temple as he lay dozing upon a sofa. He leaped for her and she shot him once in the neck and twice in the abdomen before he wrested the weapon from her.

The wounded man implored her to obtain help. The two were alone in the house. The wife refused and waited an hour for him to die. He carried \$300 life insurance. The motive for the money is the supposed motive.

Sale of McCreery & Co.'s Silks.

Continues tomorrow. This will be the third day of the great silk selling. Just as we predicted yesterday, the sales of today were just doubled over the day before—no reason why they should not double tomorrow over today. With fair weather in prospect, we expect a stampeding crowd at the silk counters. Every yard of silk sold at today's sale means the selling of three or four yards tomorrow. Every individual sale is a better advertiser than whole columns of newspaper talk. We want this Silk Sale to stand on its own merits. Remember that this sale embraces the most staple Black and Colored Silks that fashion commands—about their quality there is no doubt. It stands good—Our offer to refund you the money for any silk bought during this sale, found not as represented or not cheaper than any silk ever purchased before.
